

NADAC Trial hosted by Paws to Consider

19-20 February 2022

Werribee Park National Equestrian Centre – K Road Werribee – Indoor Arena 2

Show Instructions

On arrival at Werribee Park please check in at the automatic boom gate using WPNEC's QR code check-in. Please instruct your family and friends who come to watch to also check in.

Proceed to Indoor Arena 2 and safely park your vehicle do not obstruct any roadways. Once parked proceed to the trial check in and vaccination verification location (situated inside the arena near my yellow van). Trial check-in opens at 6.30am. You may not access the indoor arena until check-in is open. Please wear a mask in the arena. You will be greeted by Shirlene who will ensure you check-in with the trial QR check-in code, will verify your vaccination status and provide you with a wrist band which you must wear at all times. Check in is required each morning. If you attended Saturday you still must check-in on Sunday and get a new wrist band. Once you have your wrist band you may then set up your crating area and/or help with trial set up. Your family and friends must also check-in and have vaccination status verified and receive a wristband.

COVID settings for this trial are available online on the [NADAC Australia Calendar page](#). and on the NADAC trial App (links for App on the calendar page).

Class running order:

Saturday: Regular Agility 2 rounds, Touch N Go 2 rounds, Jumpers 2 rounds **Sunday:** Regular Agility 2 rounds, Chances 2 rounds, Weavers 2 rounds.

Exhibitor run order:

Available online (no printed run order available onsite). All classes run Elite-Open-Novice-Intro

From entry close a hard copy may be printed from the NADAC Australia Calendar page "Pre-trial hard Copy". This copy will not show any changes that may occur after entry close. If you use this printed copy, you must update it yourself from the "NADAC Trial App" which is also available on the [NADAC Australia Calendar page](#).

The NADAC trial App is updated "live" from entry close, through trial days and up until final results are posted . The live updates reflect any changes to the run orders such as scratchings, day of shows, multi-dog handler issues etc.. . These changes can occur anytime from entry close and throughout the trial. When using the Live App be sure to use the sync button every now and then. Please refer to the App instruction sheet for guidelines on how to use the App

If you need to scratch your dog on trial day please do so via the NADAC Trial App. It is also a courtesy if you let the owner of the dog running after you so they are not looking to line up after you when the class is running. Guidelines for scratching are on the App instruction sheet.

You must run in the order listed unless cleared by the Judge or Shirlene – this is not only part of COVID protocol but it also prevents confusion amongst your fellow competitors and helps the score table record correctly. Please take responsibility for knowing your own run order it is a little unfair to distract others preparing for their run because you haven't taken the time to know your own run order.

Job Rosters:

Are available online on the NADAC Trial App Thank you so much for your help. Wendy and I rely on your generosity and appreciate your help not only with doing rostered jobs but also for helping with trailer unloading and loading and course building and course changes. We simply could not do it without your help.

Course Maps:

Will be made available via the NADAC Trial App

Results:

Are posted on the NADAC Trial App throughout the day

Presentations:

Ribbons can be collected if you have elected to receive ribbons instead of trial entry credits at the end of each day from Shirlene.

Highest in Trial presentation will occur on Sunday after events have concluded, scores are entered etc..

You will find start time information and all other trial information in the trial premium on the [NADAC Australia Calendar page](#) on the website

You can find everything you need to know about NADAC rules in the Exhibitors Handbook – you will find that on the [Exhibitors Page of the NADAC Australia website](#) and on the NADAC Trial App.

I have done all I can do to provide you with information to help you enjoy the trial – it is up to you to find the joy in playing the game with your dog. I wish you all the very best at the trial with your dog(s) and I thank you for entering.

If you have any questions please contact me pre-trial or on the day.

Kind Regards,
Shirlene Clark
